

Hairy Head

Materials for one: Panty hose knee-hi
Tablespoon of Grass seed
One cup of Peat Moss
Small empty plastic container
Paper, wiggly eyes, yarn stickers (items to make a face)
Paper to wrap around plastic container
Water

Directions:

1. Place grass seed into opened panty hose. Tip: Roll down edges of hose and fit around the container.
2. Pour in peat moss.
3. Knot well, and cut off any excess hose.
4. Decorate outside of container so it resembles a face.
5. Place hose in container with grass seed UP.
6. Water well. About $\frac{3}{4}$ cup. Tip: it may take an hr for the peat moss to absorb what it will.
IMPORTANT: pour out excess water after this time.
7. Keep by a sunny window and your grass head aka: Hairy Head, will sprout within a week. In a week it may be time for a drink of water and a HAIRCUT!!!!

WHAT FUN!!!
