

## **Puzzle Frame**

Make a frame with left over puzzle pieces or purchase a cheap puzzle.

**Needed:** puzzles  
large craft sticks - 8 for each frame  
glue - tacky or stronger glue  
magnet or yarn - to hang  
photo to put inside the frame

Make a frame using 4 craft sticks: glue at the corners. Add another layer of 4 more craft sticks to the same frame so it is stronger. Have children attach the puzzle pieces using glue. (For smaller children put glue on a section of the frame and then have them place the puzzle pieces on the glue.) Continue until the entire frame is covered. When dry attach the photo to the back. Add a strip of magnet or a piece of yarn to hang it.

*Variation:* First paint the puzzle pieces, then attach to the frame.

*This is easy and fun to do.*
